

CHM111 Practice Exam on chapter(s): 5, 6

1. 0.28 J/g/K
2. 0.421 atm
3. 18.1 cm
4. Not possible: you cannot change T in such a way to maintain V, since propane will turn into a liquid.
5. 3.3 cm³
6. 349. mmHg
7. 4.3 kPa
8. 19.5 atm
9. 4.5 L
10. 2.9 atm
11. 0.086 atm
12. 240 kJ
13. 1.05 kPa
14. 164. kJ
15. -5.94×10^4 J
16. 1.9 L
17. 12.1 cm³
18. 6.80 cm³
19. -308.0 kJ. Since $\Delta H < 0$, the reaction is exothermic.
20. 164. kJ
21. 6.22 mL
22. 0.888
23. 2.4 atm
24. 38. g/mol
25. 0.15 mol
26. $-7.$ J
27. 850 kPa
28. 5.122×10^{-3} atm
29. 0.6909 atm
30. 1.42 g/L
31. 0.67
32. 2.83 mL
33. 626. torr
34. 75. N
